

I am a forward-thinking student and developer based in Muntinlupa, currently pursuing a Bachelor of Science in Information Technology at Lyceum of alabang. My technical milestones include building full-stack web applications and deploying scalable APIs.

I aim to become a Lead Software Engineer, specializing in full-stack cloud development and machine learning integration. Outside of coding, I am an avid trail runner and amateur landscape photographer. These creative, active hobbies keep me grounded and energized, preventing burnout and fueling my problem-solving skills when tackling complex software architecture.

My Skills are:

Languages

Java, C++, C#, Python, VBA

Web Tech

HTML, CSS, Bootstrap, ASP.NET Core MVC

Databases

Microsoft Access

Tools

Visual Studio, Git/GitHub, Figma, Cisco Packet Tracer, Adobe Photoshop, Blender
